

Abdelrahman Hassan Mohamed

Back-End Developer | Laravel

✉ abdelrahmanhasan020@gmail.com ☎ 01004732940 📍 Egypt - Mansoura 🔗 LinkedIn 🏠 Github

Summary

Motivated Computer Science student majoring in Software Engineering with strong expertise in Laravel (PHP) and back-end development. Skilled in building secure, scalable APIs and optimizing database performance using MySQL and Redis. Passionate about writing clean, maintainable code and continuously improving through learning modern technologies and best development practices.

Education

Faculty of Computer & Information Sciences - Mansoura University 10/2023 – 10/2026

Faculty of Computer & Artificial Intelligence - Beni-Suef University 10/2022 – 06/2023

Projects

E-commerce Platform, Laravel / MySQL / RESTful APIs

View on LinkedIn [Github](#) - Built a full e-commerce web app with role-based authentication (Admin, Company, Customer), product and order management, and RESTful API integration using Laravel and MySQL. Collaborated with the frontend developer to ensure smooth API integration and responsive UX.

AI Chatbot, Laravel / PHP / NLP APIs

View on LinkedIn [Github](#) - Built an AI-powered chatbot using Laravel and PHP that processes user inputs and generates automated, context-aware responses through clean and scalable API design.

Library Management System, Laravel / MySQL / RESTful APIs

View on LinkedIn [Github](#) - Contributed to the backend development of an online library management system using Laravel. Implemented APIs for managing users, books, and borrowing operations, ensuring secure data handling and smooth integration with the frontend.

Bright, PHP / MySQL / Laravel

View on LinkedIn [Github](#) - Built a complete e-learning platform with course management, progress tracking, and a smart chatbot handling most user queries. Integrated real-time interactions (likes & comments) and a support ticketing system. Focused on secure backend development, optimized database performance, and user-friendly API design.

Training

PHP Back End Developer Intern, Information Technology Institute (ITI) 07/2025 – 08/2025

Training focused on PHP and Laravel fundamentals, building RESTful APIs, and working on back-end development best practices.

Skills

Backend Development

Laravel (PHP), RESTful API Design & Development, Authentication & Authorization (Sanctum, Middleware, Policies), Eloquent ORM & Database Relationships, Blade Templates Caching & Queues (Redis), Unit & Feature Testing (PHPUnit)

Programming

C++, C#, Python, OOP, DataStructure, Algorithms

Soft Skills

Research, Team Work, Time Management, Communication Skills

Database

MySQL (Schema Design, Migrations, Seeders), Query Optimization & Indexing, Database Transactions, Redis (Caching & Session Management)

Tools

Git, GitHub, Unit Testing, VS Code / PhpStorm, XAMPP, Apache, AWS EC2

Frontend

HTML5, CSS3, Bootstrap, jQuery, JavaScript

Language

Arabic — Native/Bilingual

English — Fluent
